For Mr. Helms
9 February 1967

MEMORANDUM FOR: Deputy Director for Plans
Deputy Director for Support

SUBJECT: Survey of Technical Surveillance Counter-measures

Having reviewed the above subject contained in Mr. William K. Harvey's report, and having conferred with a few knowledgeable individuals, I would appreciate it if you would examine the following points and report to me on the feasibility of the recommendation.

1. It is my impression that there is a lack of communication or cooperation between the Office of Security/Technical Division (TD) and the CI Staff of DDP.
2. While there recently has been an improvement in the coordination between the TD and some of the Area Divisions of the Clandestine Services, there is apparently no overall point of view on the entire problem.
3. I therefore recommend that consideration be given to placing countermeasures activities and positive audio operations within the same Agency component.

/s/ Richard Helms
